

JOB POSTING

Heritage Field Technician

The Organization:

A.E.W. LP was formed in 2017 by Nlaka'pamux Nation Tribal Council member communities to carry out "on the ground" work related to archaeology, the environment and wildlife protection. This work has been made necessary by activities of others within the Nlaka'pamux homeland including transportation, mining, forestry, oil and gas, and utilities projects. The Nlaka'pamux Nation Tribal Council is not opposed to development within our homeland, but developments and activities must be consistent with Nlaka'pamux title and rights.

Why Work with Us?

A.E.W. LP is guided by a commitment to uphold Nlaka'pamux rights and environmental integrity. You will directly contribute to projects that respect and reinforce Nlaka'pamux values. We foster a supportive team environment where all voices are valued, and knowledge sharing is encouraged. We offer flexible work arrangements, including opportunities to work from home, and a strong emphasis on maintaining a healthy work-life balance with a competitive compensation package:

- A wage range of \$26.00 – 32.00 per hour with overtime.
- Paid vacation

The Role:

A.E.W. Limited Partnership is seeking seasonal Heritage Field Technicians ending in November that are based in Kamloops or Lytton, BC. Working a Monday-to-Friday 5x2 schedule up to 12 hours a day, Heritage Field Technicians support archaeological fieldwork by conducting surveys, excavations, heritage assessments, and construction monitoring. The role involves identifying and documenting heritage resources, assisting with environmental field studies, and performing physically demanding outdoor work in all weather conditions. Reporting to the Manager of Archaeology, the Heritage Field Technician will:

- Carry out archaeological survey, test excavation, and mitigative excavation in a Professional Cultural Resources Management setting
- Recognition, identification, and reporting of heritage sites, features, and materials
- Responsible for field support with wildlife, riparian and vegetation studies
- Participate in Heritage Field Reconnaissance (HFR) and Heritage Impact Assessments (HIA)
- Monitor ground disturbance from development activities (e.g., road building, forestry, building construction, etc.)
- Participate in archaeological site alteration activities (mitigation and research)
- Walking pedestrian survey transects

Take care of the land and the land will take care of you

Archaeology. Environment. Wildlife. LIMITED PARTNERSHIP

- Dig shovel tests (40 x 40 holes up to 70+ cm deep)
